## INDEX to SURNAMES found within LWMFHS's DOCUMENTS

This is an evolving database which it is hoped will aid LWMFHS members in their research.

Currently it contains SURNAMES found in:

- The *METROPOLITAN* journal from October 2006 to March 2023
- Our republished Monumental Inscription series of books (MI Book)

### Each entry will contain 4 pieces of information:

**SURNAME** - The SURNAME as it appears in the document it was found in.

**TYPE** - The TYPE of document the SURNAME was found in.

**TITLE** - The TITLE which identifies an individual document within its TYPE.

**REFERENCE** - Identifying REFERENCE(s) or specific detail within the document where the SURNAME is found.

## METROPOLITAN

Each **METROPOLITAN** entry indicates; which journal (TITLE) and the article and the page where it begins (REFERENCE), the listed SURNAME appears.

If you want to discover more about an entry that interests you:

- download the relevant journal in the METROPOLITAN section of this MEMBERS AREA

The METROPOLITAN entries will grow as each published journal index is added to this database.

## MONUMENTAL INSCRIPTIONS (MI)

Contains the surname indexes found in our updated and republished Monumental Inscription series of books.

Each **MI Book** entry indicates; which parish church and/or churchyard (TITLE) contains monumental inscription(s) (REFERENCE) where the listed SURNAME appears.

## **Extra information about the SURNAME(s) listed:**

There are some entries where the forename is known but the surname isn't, they are listed likewise: '[Unknown]' with the forename following. There are only a few but it may be worth trying a search for 'unknown' just in case it generates a result.

Also where only part of a SURNAME is known it will be expressed something similar to '[...]RBER' or '[...]B[...].OD', so try searching for part of a SURNAME if your first search doesn't produce a result.
